DETAILED ACTION

Response to Amendment

1. Amendments to claims 21 and 29 have been entered in the above-identified application. **Claims 21-30 are pending.**

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 21-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Independent claims 21 and 29 have been amended to recite that the abrasion resistant layer is "single phase". There is no support for such an amendment in the original disclosure. The Examiner was unable to find any explicit or implicit reference to a "single phase" abrasion resistant layer in the original disclosure and the Applicants have failed to point to any specific support for such an amendment. Furthermore, lines 8-11 of Page 11 state that the abrasion resistant layer can contain additives such as fillers and hence indicates that the abrasion resistant layer is not single phase. Appropriate clarification or amendment is required.

Response to Arguments

3. Applicant's arguments, filed January 2, 2004, with respect to the rejection of claims 21 and 24-29 under 35 U.S.C. 102(e) as being anticipated by Honda et al. (US 6,110,546) as evidenced by Contemporary Polymer Chemistry, 2nd Edition, last paragraph of page 10 and the rejection of claims 22, 23, and 30 under 35 U.S.C. 103(a) as being unpatentable over Honda et al. (US 6,110,546) (*as evidenced by Contemporary Polymer Chemistry, 2nd Edition, last paragraph of page 10*) in view of Scott et al. (US 3,6546,155) have been fully considered and are persuasive. Therefore, the rejections have been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of the amendment to independent claims 21 and 29.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1773

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
